## ***Sagat Planet***

I was born on a videotape Raised by the wolves, I broke the scene. I've been drifting along the way With über sharks and cubs and queens.

I bring the big band, I bring the beat back I'm the meat gang, I'm back on track It's the Big Bang, I'm not going back In a gang bang, I'm super lit It's time to find a brand new beat  
Re-activate the space unit Put Sagat planet on orbit The speed of light I feel the heat! In outer space, into the night Put Sagat planet on orbit Oh baby you have lost the speed! it's  
magnetic! I wanna feel the gravity Put Sagat planet on orbit Put Sagat planet on orbit Into the moon, magmatic heat Put Sagat planet on orbit Oh baby I'm beyond the sprint Put Sagat  
planet on orbit Put Sagat planet on orbit Put Sagat planet on orbit Oh baby I'm beyond the sprint

J'ai parcouru l'univers de tes pensées, j'ai fusionné mon âme à une vitesse infinie. Dans les ténèbres des sphères brûlantes de la galaxie, j'ai brulé mes yeux dans les ondes  
gravitationnelles électromagnétiques de la lumière de ton coeur. Les flammes et la splendeur du magma du désir, l'expansion de l'univers surpasse ma démesure, sans peur.  
Les spectres des volutes noires de la profondeur du chaos. Mon ardeur happée dans les fins fonds du cosmos. Nos corps enlacés au fond de la dilatation galactique.  
Et la poussière d'étoiles transmutée dans nos chairs d'elixir de tourbillon volcanique. Dans mon âme absorbée par la tornade spectrale des plaisirs charnels  
Pour toujours en orbite Cosmique Magmatique

## ***The Space***

The levitation, the fragmentation Stardust is falling from the sky Sky sky sky sky I've been awaken all day long

Halucinations, digitazation I'm tripping down I'm tripping down Down down down down Am i mistaken? Am I wrong? Invisible, distinctable Birds in the space are getting blind Blind  
blind blind Moonlight in reversing unwind

I've been abducted, the constellations... Something's just watching from behind My mind, mind mind You turn the ship down, commands are broken Rushing in the holes of my brain  
Brain train brain drain

The levitation, the fragmentation Stardust is falling from the sky Sky sky sky sky I've been awaken all day long

I think I've just fainted Isn't it strange though I've been awaken all day long Alone, wasted You run my thoughts Am I mistaken? Am I wrong? Who drove my mind The clouds  
have blended Moon light in reversing unwind Atomization

## ***I Don't Want To Break Your Heart***

If they asked me I'm gonna be the man Do I really have the stamina? In a second I'll be far away Unless I switch off the camera

I don't want to break your heart, I don't want to break your heart, I don't wanna fall apart, YEAH! I don't want to break your heart, I don't want to break your heart, I don't wanna fall apart  
Do I truly want to satisfy How do I get all the charisma? It's too many men to blow away This will always stay an enigma

I don't want to break your heart, I don't want to break your heart, I don't wanna fall apart, YEAH! I don't want to break your heart, I don't want to break your heart, I don't wanna fall apart  
I'll follow you everywhere you go You're driving my moves all the way down Oh I gave it all such a long ago It's the drama I cause on my own

I don't want to break your heart, I don't want to break your heart, I don't wanna fall apart, YEAH! I don't want to break your heart, I don't want to break your heart, I don't wanna  
fall apart I don't want to break your heart, I don't want to break your heart, I don't wanna fall apart, YEAH! I don't want to break your heart, I don't want to break your heart, I  
don't wanna fall apart

It's been a hell of a ride for the Gay-HI Joe race! Seducing with so much pride, dominating with no shade! I've been so much mesmerized, I give it up with no faith This is your only  
disguised, I won't make anymore waves And then I just realized I won't be anymore brave This is for you that I Crave I'm just learning to behave! It's been a hell of a ride for the  
Gay-HI Joe race! I've been so much mesmerized, I give it up with no faith This is your only disguised, I won't make anymore waves And then I just fantasized, I'll be forever your slave  
I don't want to break your heart, I don't want to break your heart, I don't wanna fall apart, YEAH! I don't want to break your heart, I don't want to break your heart, I don't wanna  
fall apart I don't want to break your heart, I don't want to break your heart, I don't wanna fall apart, YEAH! I don't want to break your heart, I don't want to break your heart,  
I don't wanna fall apart

## ***Dark City***

Into the dark midnight, in the dark city Dragging into the light, and I've been up all night In the gloomy corner up to a mud shower, Liquid disgrace on my dirty face Male sent  
bonding into my body In the dark city, you're running after me I have been shining through, burning on the smolder Sweating the worse desire, I have a cold fever In the Dark city,  
you can get after me In the dark city, you'll get a hold on me In the dark city, Oh in the dark city Been running all over from the deepest beyond In the dark city, living on ecstasy  
Soaked-wet in the golden cave Running after my sins, without a breath In the dark city, building a fantasy In the dark city, never ending story In the dark city, Oh in the dark city  
I've been avoiding you without a trace In the dark city, you're my best enemy You are chasing me, lost in my favorite maze I've been avoiding you without a trace In the dark city,  
you're my best enemy You are chasing me, lost in my favorite maze Rushed in the filthy train, the sweat that sticks to me you can get after me, in the dark city you'll get a hold  
on me, in the dark city In the dark city Oh in the dark city

## ***The Boys Club***

I wanna touch your skin all night Eternal night's infamy I wanna feel the boys so strong A stranger danger's handy Come on avoid the boy's confusion The boy's confusion  
Come on attract the skin temptation It ain't the last invitation  
Tonight is the night Where all the boys up tight We wanna make us feel like There is no reason to fight  
Tonight is the night We wanna feel alright And all the guys and all the boys Will make love in bright light  
You came by to conquer my heart Extraordinary chemistry You wanna eat my soul apart A supernatural faculty Come on avoid the boy's confusion The boy's confusion  
Come on attract the skin temptation It ain't the last invitation  
Tonight is the night Where all the boys up tight We wanna make us feel like There is no reason to fight  
Tonight is the night We wanna feel alright And all the guys and all the boys Will make love in bright light  
My pants are skintight So stiff, it's a delight You're nourishing my reverie In the shade of midnight You boys are real pride Making out, no gunfight And all the dreams  
and all the love The boys are open wide

## ***Meant 2B***

I'm not your friend I'm not your boy Not a reason to overjoy I'll let you down in the worst way And despise you in every way Don't try to plan our destiny The time you blink  
I'm far away Don't think I'm part of your story Just be a man, not a pussy  
It's clear to me that it never gonna be It's clear to me that it wasn't mean to be It's clear to me there's a lie on the marquee Don't fall in love with me, it wasn't mean to be  
So meant 2be So meant 2be So meant 2be So meant 2be So meant 2be So meant 2be So meant 2be...  
I'm not your boo I'm not your hun If you say soon I'm on the run Your love for me is so cringy Old Fashioned, dull and uncanny And if you feel our destiny Is made of you living  
with me I'm not that rude, you're out of luck Sorry for not giving a fuck  
It's clear to me that it never gonna be It's clear to me that it wasn't mean to be It's clear to me there's a lie on the marquee Don't fall in love with me, it wasn't mean to be  
So meant 2be So meant 2be So meant 2be So meant 2be So meant 2be So meant 2be So meant 2be...  
It's clear to me that it never gonna be It's clear to me that it wasn't mean to be It's clear to me there's a lie on the marquee Don't fall in love with me, it wasn't mean to be  
It's clear to me that it never gonna be It's clear to me that it wasn't mean to be It's clear to me there's a lie on the marquee Don't fall in love with me, it wasn't mean to be

## ***Dark Matter***

You know the fate Go on it's too late Fly me outerspace Somewhere in the dark You want to expand It's heavy in the universe Learn how to command  
Somewhere in the dark matter my trust found the point of no return Turning my back to the stars I've been wandering lame and insane You just fantasize about the day  
You would have died faraway This is no reason to kill the planet Question's solved anyway  
Dark Matter Somewhere Ending Your Prayer Just Give it Don't stay I have lost the key Just finish it this way

## ***Fairytail***

What lies beneath your sexiness Is all the tricks you do I'm not a fool, in the darkness There's no secret for you Caught my breath, that deep forest These flames that I've been  
through Your ears and tails, it's craziness To Consume and devour I'd like too see your underworld There is no other way around My broken heart is put on hold And every part of you  
is pain and... I don't see any other god And what I feel is too profound There is no more light in the sky and thats the way you got me Wanna catch your fairy tail If you keep telling  
me the story of your ride But If I wanna catch your fairy tail I wanna run run, from the arrows of love  
You came too close, its your process If only I'd refuse I got your stick, it's a success I'm ready to get used Shared your dreams, wet by the suet I'm rushing into you You' hairy male,  
I feel possessed This fever, got me too I'd like too see your underworld There is no other way around My broken heart is put on hold And every part of you is pain and... I don't see any  
other god And what I feel is too profound There is no more light in the sky and thats the way you got me Wanna catch your fairy tail If you keep telling me the story of your ride But  
If I wanna catch your fairy tail I wanna run run, from the arrows of love  
Despite that I opened the gates of Hell Lonely, lonely, and all the souls across the world This is the way to cast a spell I wanna catch catch your naughty fairy tail  
Hey Creature behind the tree Don't hide, tell me a magic story Wanna catch your fairy tail If you keep telling me the story of your rid But If I wanna catch your fairy tail I wanna run  
run, from the arrows of love

## ***In Extasy***

I love the way the sunlight caresses your face, It's so dreamy I can't find a way to tell you how much your voice sounds so high-energy You put a groovy track, this crazy record sounds amazing to me And in the meantime this wild melody is growing deep inside of me  
I've been spinning on the dance floor, what can I do? I've been dreaming to your rhythm, what else to do? I've been losing the echo so far we've been through This music beat to my heart, Oh yes it is true And I forced a thousand doors, this way we've been two You've been singing through the sky this magic is you I've been stripping in the disco, this song is yours This tempo in my body, yes it is for you I've been spinning on the dance floor, what can I do? I've been dreaming to your rhythm, what else to do? I've been losing the echo so far we've been through This music beat to my heart makes me feel In Extasy Oh in extasy, in extasy, oh in extasy  
It's another day the rhythm of my heart is slowly getting fiery I just find the key entering your soul, exploring your true phantasy You get the vibe on time, your eyes are overhanging a powerful party When the sunrise back my body dissolves into clouds of cotton candy  
I've been spinning on the dance floor, what can I do? I've been dreaming to your rhythm, what else to do? I've been losing the echo so far we've been through This music beat to my heart, Oh yes it is true And I forced a thousand doors, this way we've been two You've been singing through the sky this magic is you I've been stripping in the disco, this song is yours This tempo in my body, yes it is for you I've been spinning on the dance floor, what can I do? I've been dreaming to your rhythm, what else to do? I've been losing the echo so far we've been through This music beat to my heart makes me feel In Extasy Oh in extasy, in extasy, oh in extasy

## ***Up All Night***

You put your hands into the moonlight You nearly draw the shape, it's all grey Vicious places where the cats fight Wild and savage, close the doorway I got the shivers when you strike back A stain of blood has made its own way Wild creatures glow into the twilight Harmful beasts become the real prey  
I've been shivering in the house of fright I've been wondering if you were inside You are turning into the bogeyman I don't think I can hold all this fear around  
I've been up all night I've been up all night I've been up all night I've been up all night I've been up all night  
A curse has spread into the mankind Hunger is stronger than yesterday Malicious race and silver gunfight Bite and scratch, it's like a blood spray Feels like a thriller in real life  
Embrace your strength this isn't Hunt Day Chasing for fun you think it's alright I might have lost the taste of foreplay  
I've been shivering in the house of fright I've been wondering if you were inside You are turning into the bogeyman I don't think I can hold all this fear around  
I've been up all night I've been up all night I've been up all night I've been up all night I've been up all night  
You ain't no Villain that I wanna see I ain't no human that you wanna kill Do I understand there's a trigger Coming back to feed your insanity  
I've been shivering in the house of fright I've been wondering if you were inside You are turning into the bogeyman I don't think I can hold all this fear around  
I've been up all night I've been up all night I've been up all night I've been up all night I've been up all night

## **Intermission**

This is a story about cruising, a story about entering and going deep inside, with no ending no beginning Through the magic of the unknown, the obscurity...  
This is story about loosing yourself willing to go somewhere or not going anywhere This a story about redemption, a story about action

I've been looking for action I've been looking for passion Been looking for sensation I've been looking for fiction I've been searching for love I've been looking for joy  
I've been looking for lust I've been searching for you Been looking for your soul I've been looking for life I've been looking for more I've been looking for them  
Action / tension I want the action, impulse This is attraction / repulsion I want the action, impulse And this is action, vision With no direction, poison  
I want more passion, motion And this is friction, passion Intermission

## **Follow Me**

I'm getting out I'm moving on And from now on Address unknown I should be difficult to find So follow me Just follow me.  
I'll sell you dreams and new desires I'm trading hope I'm open late I am the night I am your fate So follow me Just follow me  
Faust was right Have no regret Gimme your soul I'll give you life And all the things you want to get So follow me Just follow me.  
I'll give you wings I'll sell you fame Merry-go-round Maybe to hell I am the key to your problem So follow me Just follow me.  
Unbelievable maybe You'll have a new identity For a second of vanity I want to change your destiny  
Unbelievable maybe You'll have a new identity For a second of vanity I want to change your destiny  
Follow me Follow me I'll give you anything you want Your wish is my command If you agree to follow me.
